## **International Conference 'EDUCATION for DEMOCRACY'**

Ostrów Wielkopolski (Poland), November 3-5, 2022

### **SCOPE**

As the key idea of the conference is to work out a possibly objective and comprehensive concept of education serving democracy, the event itself is meant to be democratic on the level of participants as well as the subject matter discussed. We encourage to participation all those who wish to have their say on democratic education, and we intend to cover the four educational domains – without favoring any particular group of participants or disregarding any of the multiple perspectives on the eponymous issue.

The scope of the conference and the range of people we encourage to join follow from the 4 key questions:

1. **What do we THINK OF democracy?** – which focuses on axiological aspects

exemplary issues: the merits and shortcomings of democracy, determinants of its quality, cultural and historic conditioning;

expected participants: philosophers and historians of education, educational theoreticians;

2. **What do we DO FOR/WITH democracy?** – which relates to pragmatic aspects

exemplary issues: the range of actions favorable for the introduction and solidification of democracy, determinants of its longevity

expected participants: participants of social life, practitioners, employees of organizations of public utility, and experts in related fields such as sociologists, ethnolinguists

3. **How do we FEEL ABOUT democracy?** – which pertains to affective aspects

exemplary issues: conditions of a psychological and generally-human character relations based on the sense of solidarity and democracy, and built by people of different ethnic origin, at different ages, of a dissimilar social status

expected participants: psychologists and cultural experts

4. **How do we CONSTRUE democracy?** – which concerns cognitive aspects

exemplary issues: the status of democracy as a conceptual category, its susceptibility to individual interpretations, categories related to democracy, democratic image of reality

expected participants: various communities, in particular linguists and anthropologists

**Do participate and share your answers to the four questions with us!**
